PROJECTS

Personal Portfolio

- Developed a sleek and modern personal portfolio using HTML5, CSS, and JavaScript.
- Implemented a minimalist design to enhance user experience and navigation.
- Utilized React.js to create dynamic and responsive elements on the portfolio.
- Demonstrated creativity in design choices while maintaining a focus on simplicity and ease of use.
- 40+ hours

Recipe Website

- Developed a dynamic recipe website using a tech stack that includes HTML5, CSS, JavaScript, React.js, Node.js, npm, Express.js, and axios.
- Implemented a custom proxy server to seamlessly access the Edamam recipe API, enhancing the site's functionality and expanding the available recipe database.
- Leveraged browser APIs to enable users to search and discover thousands of recipes directly on the website.
- Integrated features that allow users to navigate to the source URL for each recipe.
- 90+ hours

EDUCATION

Full-Stack Web Development, Persevere Now, Eloy, AZ, Nov. 2022-Nov. 2023

- Successfully completed an intensive coding boot camp specializing in the MERN stack
- Developed proficiency in JavaScript, React.js, Node.js, Express.js, and MongoDB.
- Collaborated within a team environment, fostering effective communication and teamwork skills while contributing significantly to group projects

GED, College of Western Idaho, Nampa, ID, March 2013

General Education Diploma

SKILLS

HTML	CSS	React.js	MongoDB	npm	Jquery	Next.js
Express.js	Node.js	JavaScript	Bootstrap	TypeScript	Sass (Syntactically Awesome Style Sheets)
